

Visit Belzona at the Offshore Europe Exhibition in Aberdeen, 8th – 11th September 09

Belzona will be exhibiting at the Offshore Europe exhibition in Aberdeen, Scotland, from September 8th – 11th 2009, on **stand 971**.

Highlights will include:

- **The launching of Belzona 5841** – which forms part of a range of coatings for the repairing and protecting of metal surfaces which suffer from CUI (Corrosion under Insulation)

The showcasing of the following solutions:

- Our ISO/ASME/DOT compliant composite wrap system “**Belzona SuperWrap**”
- Our moisture tolerant coating – **Belzona 5831** - which can be applied underwater - ideal for the service conditions found in an offshore environment such as for the splash zone of risers
- Our sprayable high temperature vessel linings which include **Belzona 1391S** - specified by a number of supermajors
